

The ERIC-PPCI Newsletter

News

Welcome to the August Newsletter. July has been another excellent month for ERIC-PPCI with over 100 patients being randomised into the trial for the 3rd month running. This is a fantastic achievement!

There are some huge milestones to acknowledge in terms of recruitment with Leeds General Infirmary recruiting their 100th Patient into the trial. This month our top recruiting sites are Queen Alexandra with 17, John Radcliffe with 13 and Blackpool Victoria with 11. We would like to thank all of our sites for their continuous hard work over the past months.

In other news Birmingham Heartlands Hospital had their site initiation on the 19th July and are due to start recruitment this month, while Kettering General Hospital are due to have their site initiation on the 8th of August, we welcome them both on board.

Just to let you know this months Newsletter is a one page special but we will resume normal newsletter service from next month. We hope you are all having a great summer!

681 Patients Recruited!

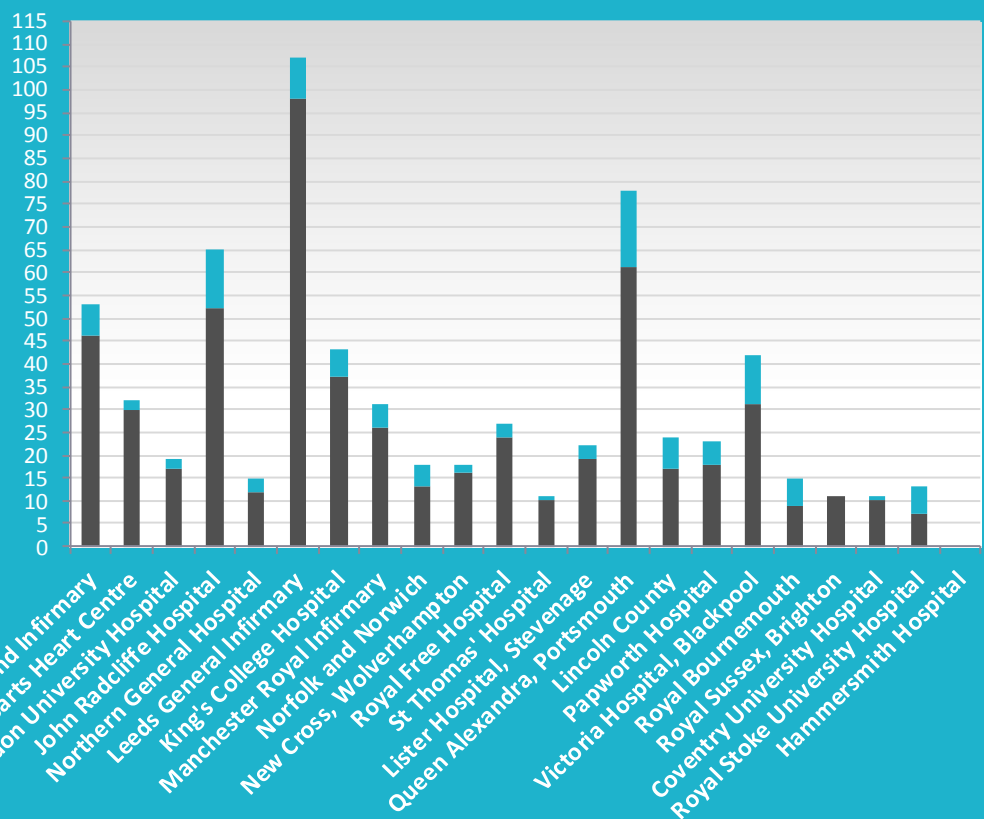

Recruitment Summary

LUCKY DRAW

We will be drawing a lucky dip winner from all the sites that recruit a patient in August. Good luck and get your recruiting hats on!

Key:

- Recruitment in July
- Previous recruitment
