

News and recruitment updates

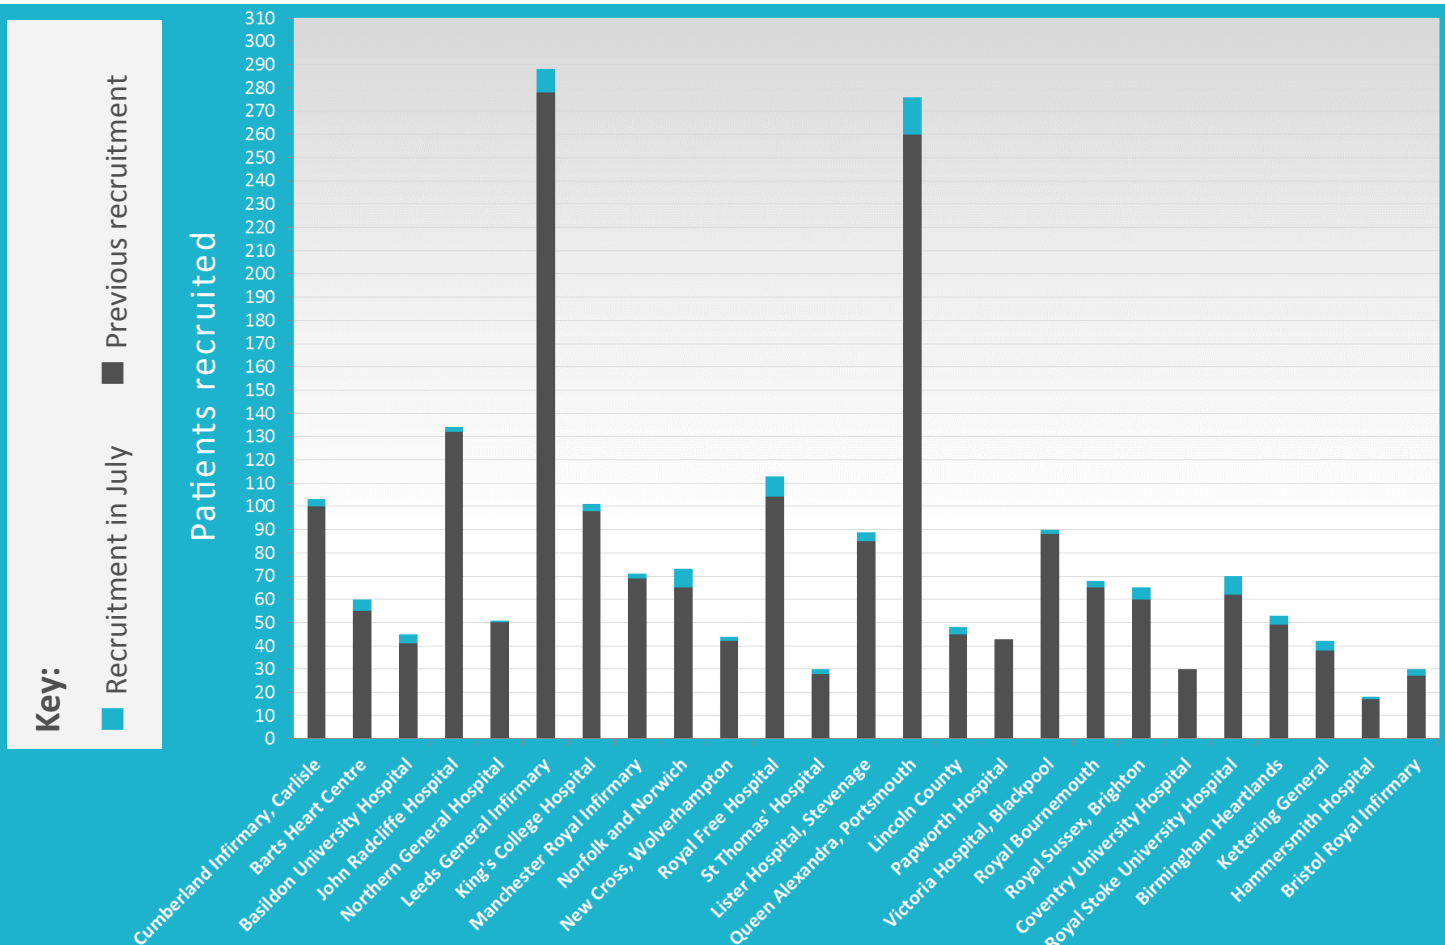

ERIC-PPCI has recruited 2000 patients

Congratulations to the whole ERIC-PPCI community. Reaching 2000 patients is a stunning achievement and is due to your hard work. Well done Martina Colicchia at Barts who recruited the 2000th patient on 18 July. We are already well on our way to reaching the new sample size of 2600 patients.

In July, 104 patients were recruited into ERIC-PPCI which brought us to **a total of 2045**. ERIC-PPCI remains a full 12 months ahead of projected recruitment.

The top recruiting sites in July were Charlotte, Anne, Rosalynn, Leslie, Emma, Trevor, David and the Portsmouth team (16 patients), Charlotte, Michelle, Kathryn and the Leeds team (10 patients), and Angelique, Jacolene and the Royal Free Hospital team (9 patients). In total, 23 out of 25 sites recruited a patient. Thank you all for your commitment to ERIC-PPCI.

Several sites reached recruitment milestones in July. Kings' College Hospital recruited their 100th patient and Birmingham Heartlands recruited their 50th patient. Keep an eye on your mailboxes for a thank you from the ERIC-PPCI CTU. We hope you are all having a great summer.
